

Flash functionalities in AUDAC Touch™ 2

AUDAC Touch 2.4 update

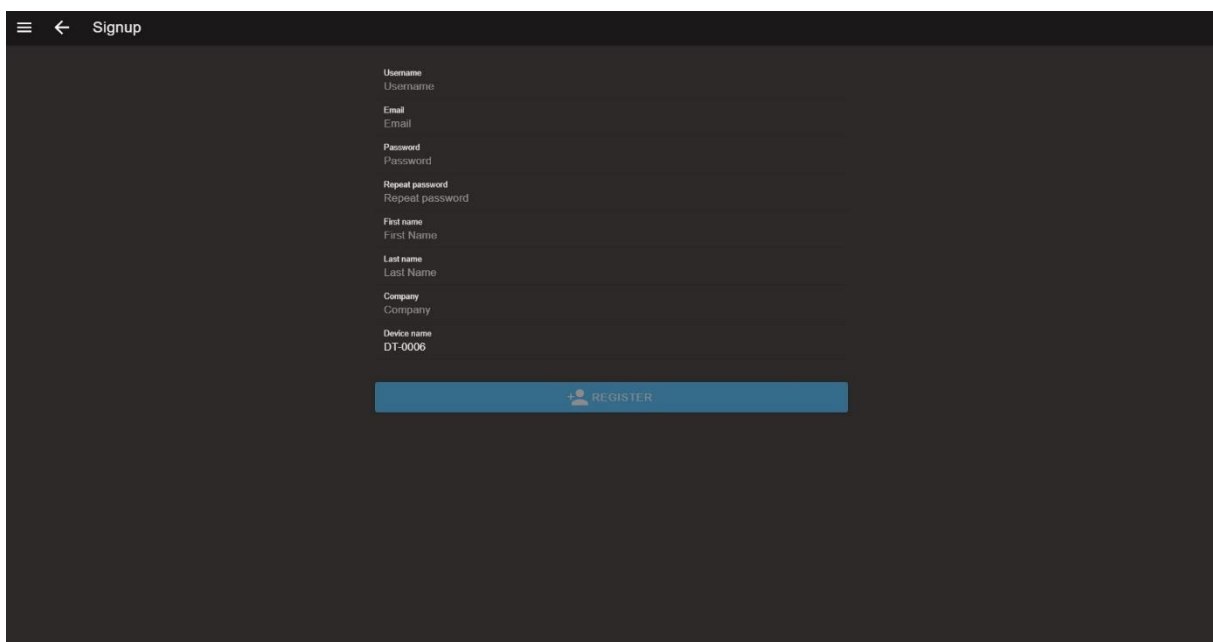

Step 1: Download and install AUDAC Touch™ 2

Head to the [AUDAC Touch™ 2 page on the AUDAC website](#). Here you will find links to the application on the different platforms.

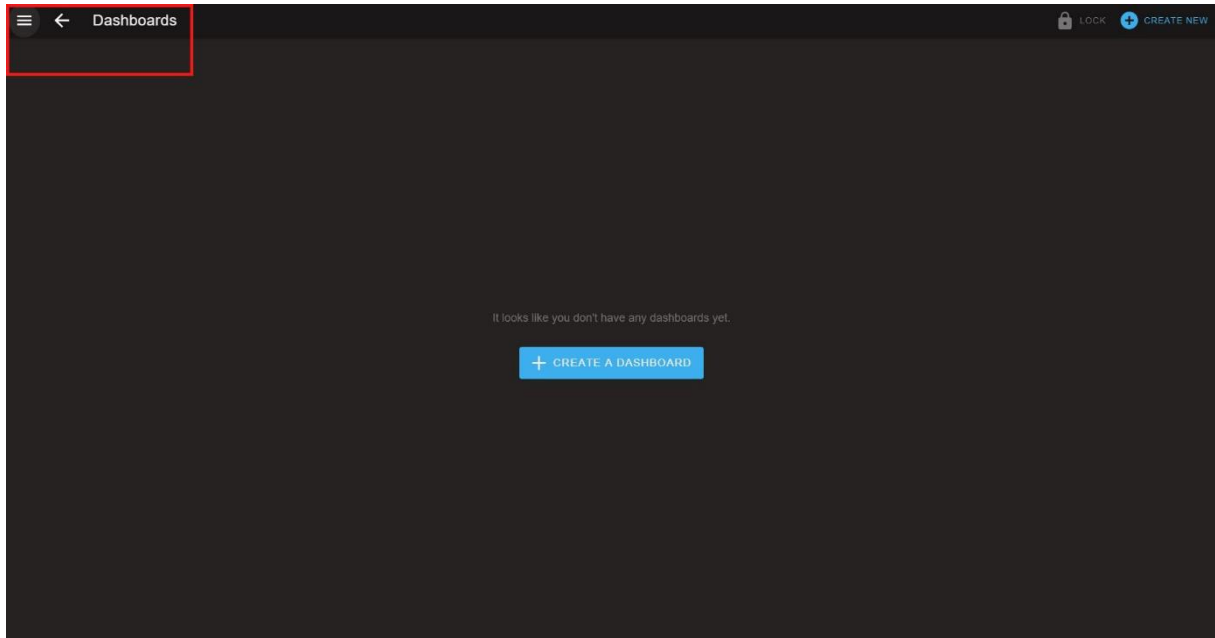

Step 2: Register an account

Log in on AUDAC Touch™ 2 or signup for a new account by registering.

Step 3: Head to devices

Once you've created an account the app will automatically start scanning for all devices in your network. You will find an overview to go the app's menu and select 'Devices'

Step 4: Select the device you want to configure

Tap the device you want to use and you'll get a handy overview where you can quickly start controlling it.
