

# Atellio family: NCP105

## Firmware and AUDAC Touch™ update

We would like to bring you another update about the Atellio family. Please make sure you are always running the latest version of AUDAC Touch™. You can find the latest versions here: <https://audac.eu/eu/software/audac-touch>

### Release end of May 2024

#### NCP105 1.1.0: New features

- Improved touchpad driver including configurable sensitivity
- Atellio family mixer control support
- Link local IP configuration support

#### NCP105 1.1.0: Bug fixes

- Fixed Consenso control trough commander (device not accepting more than one command)

### Known limitations for the latest version (May 2024)

#### NCP105 series - V1.0.4

- Will initially only work with the LUNA & the NWP series.
- The devices to control should have a static IP address.

## Release: December 6<sup>th</sup> 2023

- NCP firmware version: 1.0.4

### New features

- Luna GPO triggering via Luna event handler and NCP105
- Event handler settings backup and restore via file browser
- NCP105 supports custom (single) commands via commander function in AUDAC Touch™ for, Atellio family\*, Consenso family\* & third-party equipment. No visual feedback yet for custom commands via the Commander function.
